City Council Recommends No Trick or Treating This Year

The Grayling City Council went on record at their Oct. 25, 1982 meeting as follows: "the Council recommends to community parents that they not allow their children to celebrate Halloween in the usual manner of trick or treating and that they have children attend school or church parties instead, further that the City of Grayling will donate \$100.00 to the Crawford AuSable Schools to help defray the cost of such a function for children."

This action was taken by the City in the belief that due to recent events the safety of children must be considered more than ever this year.

The action taken by the City was also at the request of Crawford AuSable superintendent Kent Reynolds, the Crawford County Board of Commissioner Chairman and the County Sheriff Dept. and City Police departments.

We ask the community to please co-operate with this effort to protect our children and to enjoy a safe & Happy Halloween at school or church.

Four County Races To Be Decided Tuesday

Races for four county positions will be decided Tuesday, November 2, in a general election.

Two county commission seats are contested as well as the county clerk position and county road commissioner seat.

In commissioner district 4, sticker or write-in candidate Earl "Ted" Johnston is challenging incumbent Larry Mattis. In commissioner district 5, sticker or write-in candidate incumbent Walt Nowak is challenging Don Welser. Mattis won the Democratic nomination unopposed with 108 votes in the August primary. Welser defeated Nowak by 106 to 95 votes to win the Republican nomination in the August primary.

In the county clerk race, Democrat Elizabeth Wieland faces Republican Nancy Krey. Wieland won her party nomination with 525 votes unopposed in the August primary. Krey won her party nomination with 496 votes defeating two other candidates in the August primary.

In the county road commissioner race, Republican Gary Willoughby faces Democrat incumbent Grover "Casey" Cason. Willoughby won his party nomination with 822 votes in the August primary. Cason won his party nomination with 436 votes in the August primary.

Incumbent county commissioners Jeannette Kitchen, Mary Harland, John Miller, and Andie Neilson are running unopposed on the ballot. Garland "Bud" Joyce is running unopposed as a

Republican candidate for the new 7th district.

Voters in Grayling Township will also have the question of building a township hall on their ballots. The township is proposing constructing a 40 by 72-foot hall on township land near the compactor. The cost of the building is estimated at about \$125,000 to \$135,000 and township officials say no extra taxes will be levied to build or maintain the hall. Most of the funds for construction will come from a township improvement fund that currently has about \$122,000 in it.

In Frederic Township, Betty Sajdak is running unopposed for a township trustee position.

Incumbent Judge Emil Kraus is running unopposed for Probate Judge.

County Adopts 1983 \$2 Million Budget

County commissioners adopted a 1983 budget of \$2,191,367 Monday night following an hour and a half public hearing on the proposed budget.

The 1983 budget increased about \$133,000 from the 1982 budget. About 30 persons attended the public hearing Monday night. The proposed budget was adopted by a 7-0

vote of commissioners.

Most of the increased revenue for the county comes from higher state equalized values (S.E.V.) and new property on tax rolls. Included in the county budget are funds from the senior citizen center and public transit millages that go entirely to the senior center and public transit (Dial-

A-Ride).

No county department received a large increase for expenditures in the 1983 budget. The \$133,000 increase was spread around most of the county departments. A more detailed break-down of the 1983 proposed expenditures and revenues will be published in next week's Avalanche.

Nursing Home Receives OK

A proposed 120-bed nursing home for Grayling received regional approval last Wednesday.

The \$2.3 proposed facility now needs only state approval before construction can begin. The Northern Mich. Health Systems Agency Board of Directors decided Wednesday to recommend approval of the project by the state department of public health. The state usually follows advice from regional agencies in approving nursing homes.

If the state approves the project, construction could begin next spring with a completion date of Jan., 1984.

Convalescent Management Inc., of Columbus, Ohio, is the firm proposing to build a single story facility for long-term care patients from Crawford and Roscommon counties. Five acres within the Grayling city limits has been picked as a site.

The proposed facility, called the Grayling Health

Care Center, will employ 70 persons once in operation.

At the board of directors meeting Wednesday held in Grayling 19 persons from Grayling were in the audience of about 30 persons. Jerry Morford, Grayling City Manager, Ron Fraser, Grayling Holiday Inn owner, June Hatt, who used to run an adult foster care home in Grayling, and Ted McEvers, insurance agency owner in Grayling, spoke to the board at the meeting about the proposed nursing home.

Airport Petition May Hinge on Area Affected by Zoning

An airport zoning petition is short of signatures according to a written opinion by the county's assistant prosecutor about the "affected area" of the zoning.

Assistant Prosecutor David Sabin said the affected area of the zoning is the entire county instead of a smaller hazard area - covering a 25,000 foot radius from the end of each runway.

The airport petition, asking for a vote by the people on the new zoning, had 732 signatures. Petitions are required to have at least signatures from 20 percent of the electors in the affected area for action. Petition circulators thought they had more than 20 percent of the electors in the hazard area, but if the entire county is the affected area, more than 1000 signatures are required. Out of the 732 original signatures, Grayling city and township officials have deemed 652 as valid.

Sabin, in his written opinion, said at first impression the hazard area seems to be the area affected by the zoning. However, in the forward of the zoning ordinance it states the ordinance is for the purpose of promoting the health, safety, and general welfare of the inhabitants of Crawford County. Also, the Enabling Act of 1950 speaks in terms of political subdivisions such as county, city, village and township. The authority in the act is given to a political subdivision, which in this case is Crawford Co.

"Since it is a county ordinance, the affected district would be considered by this writer as Crawford County," Sabin concluded.

Ted Johnston, one of the leaders of the petition drive, said he would contest the opinion of the "affected area" which leaves the zoning petition short of the required number of signatures.

says Michigan law (Public Act 278) clearly spells out the affected area of an ordinance can be a smaller district instead of the whole county. He also says the zoning ordinance - with all the ramifications it could have on property owners in the future - should have been placed on the ballot in the first place for a vote of the people. Welser also says the zoning ordinance was filed

improperly without maps attached and the ordinance can't be in effect yet because the governor has not signed it.

The county commissioners have the authority to place the zoning question on the ballot even without the required number of signatures. The petition asks the question on the airport zoning be put to a vote at the

Why Red Cross?

by Harrison Goodhue

The second part of the third mandate of the U.S. Congress requires American Red Cross - to "mitigate" and find ways to "prevent" the human suffering resulting from natural or man-made disasters.

As you know, mitigate means to alleviate, to reduce, to ease - so American Red Cross interpreted this charge to mean they

should train people how to avoid being hurt and how to take care of those who were injured until they could receive professional medical care.

By the early 1920s American Red Cross was teaching First Aid procedures to citizens. How to stop the flow of blood; how to bandage a wound; how to splint a broken limb; how to protect

GHS Presenting "Heaven Can Wait"

The delightful and disarming comedy hit, "Heaven Can Wait," which was made into one of the most successful motion pictures ever produced, has been chosen as the Grayling High School fall play.

"Heaven Can Wait," written by Harry Segall, is the original play version from which the movie, "Here Comes Mr. Jordan," was taken. Subsequently, it was made into a television film, and in 1978, into a motion picture starring Warren Beatty and Julie Christie.

The Grayling High School Players have scheduled "Heaven Can Wait" to be performed in its original, full-length form in the Joseph Stripe Auditorium of Grayling High on Friday and Saturday evenings, November 19 and 20.

"Heaven Can Wait" is the story of a messenger from the Hereafter who makes a mistake and delivers the

wrong person too soon. His victim is a self-confident prize-fighter named Joe Pendleton, who is outraged that his chances for a boxing title have been cut short, and insists on being taken back to Earth to accomplish his mission.

Mr. Jordan, Head of the messenger staff, attempts to correct the error, but discovers that Joe's body has been cremated. The suspense and excitement of this heart-warming tale grow out of Mr. Jordan's and Joe's search for another suitable body, as the fighter returns to Earth in the body of a most unlikely person.

The New York Times praised the original film as being "gay, witty, tender, delightful, and totally disarming."

a victim in shock; etc. Red Cross had developed training manuals, charts, lecture texts, slide films and training movies, and had enlisted thousands of Volunteers to become unpaid instructors of such courses.

A few years later Red Cross, recognizing the terrific loss of life in drowning accidents, added Water Safety Training to its activities. Young people, particularly, were taught how to swim; and more advanced swimmers were trained to rescue drowning victims and resuscitate them.

Again, Red Cross enlisted thousands of Volunteers to become unpaid instructors in Swimming and Water Life Saving.

Later, safety in boating - canoeing, sailing, power boating, etc. - were added to Red Cross Water Safety Training programs.

For many years the primary requirement to become a Life Guard at a swimming pool or beach is possession of an American Red Cross Certificate Life Saving & Water Safety.

For over fifty years American Red Cross First Aid training materials: Charts, Text Books, Film Strips, Movies, etc., have been the tools for every First Aid training program in industry, public schools, universities and hospitals.

The extent of such First Aid training at the national level is startling!

In the 1981 fiscal year 450,800 Volunteer Instructors conducted 634,500 First Aid, CPR, Water Safety, Home Nursing and Health courses from which 6,373,243 Americans - young and adult - graduated successfully and were awarded Certificates in proof thereof.

In that same year 490 individual Americans were awarded Certificates of Merit - the most prestigious award given by American Red Cross - who, after intensive and thorough examination and certification of each case, was established as having saved the life of a fellow human through application of the Life Saving training he or she had received from Red Cross.

In the last ten years over 45,000,000 Americans have acquired Certificates of suc-

cessful completion of Red Cross Safety courses - about one of every five.

Crawford County Chapter's statistics for the year ending June 30, 1982 are equally impressive:

Thirteen First Aid and CPR Instructors held 30 courses in which 457 trainees qualified and were awarded certificates. These thirteen instructors spent 452 hours for an average of 35 volunteer hours per instructor.

Twenty seven Swimming Courses were held and 161 students were awarded Certificates ranging from "Beginners" to "Advanced Swimmers". Since June 30, 1982 an additional 19 swimming courses have been completed and another 128 young people have received Certificates of qualification in their class.

In the fiscal year ended June 30, 1981 American Red Cross expenditures for their vital humanitarian and supporting services (exclusive of Blood Service operations) were:

Service	Millions	% Total
Military Families & Veterans...	\$58.8...	26.4%
Disaster Relief...	\$48.5...	26.4%
Nursing & Health...	\$10.5...	4.7%
First Aid, CPR & Water Safety...	\$25.8...	11.6%
Youth...	\$7.3...	3.3%
Community & Volunteers...	\$24.6...	11.1%
International...	\$2.3...	1.1%
Membership & Fund Raising...	\$9.8...	4.4%
Management & General...	\$35.0...	15.7%
Total	\$222.6...	100.0

The American people contributed \$203,920,000 to American Red Cross in the 1982 Fiscal year. That was \$18,680,000 less than the \$222,600,000 expended by Red Cross in providing the vital humanitarian services that Red Cross, and only Red Cross, renders to the American people.

This shortfall had to come out of reserves which are almost exhausted now, and it is anticipated that the 1982 fiscal year shortfall (which ended June 30, 1982) will exhaust the remaining reserves.

To those of you who have read these articles so far,

our deep and sincere thanks.

Their purpose has been to try to tell the folks of Crawford County what American Red Cross does and how it has to get the money to support the 19,167 paid staff members and the 1,405,743 unpaid Volunteers. That is a ratio of 73 Volunteers for every paid staff member, which is why American Red Cross proudly acknowledges that over 90% of Red Cross work is performed by unpaid Volunteers - a figure not equalled by any other Service or Charity organization!

If American Red Cross is to continue to provide its vital humanitarian services it must increase its fund raising effectiveness by at least 10%!

We hoped that most of the folks who subscribe to The Avalanche would read these articles explaining what American Red Cross does and why it does it, because we believe that every individual who understands "Why American Red Cross" will be convinced it deserves their financial support.

The only way we will ever know if the effort is worthwhile will be by the new contributions received from the people of Crawford County who have not previously supported Red Cross in this community.

This is the last plea for your contribution to this October 1982 Red Cross Fund Drive. If we have convinced you that Red Cross does deserve your support, please send a check to American Red Cross, RR 2, Box 2515, Grayling 49738, for your fair share!

Thank you on behalf of the American Red Cross Volunteers of Crawford County.

An Open Letter to the Public

I have just now read my Avalanche and could not believe what I was reading. The budget for Crawford County for 1983 as set by the Board of Commissioners is more than two million dollars. With the county one of the poorest in the states how can it possibly handle a budget of that size?

Just a little over ten years ago, I was a commissioner. We presented our budget to the people and it was around \$475,000. They were very angry and demanded we go back, make some cuts and come up with a new budget. Now I grant you there has been a lot of changes since then and the state does enter into a lot of things but it is inconceivable how a budget could jump from \$475,000 to over \$2,000,000 in a little more than 10 years. We got \$25.00 a day for a meeting, I think this group gets \$40.00. What makes them think they are \$15.00 more a day better than we were? We got \$15.00 for a special meeting and I can not remember the amount of mileage but you can bet this Board gets more.

The Commissioner from Dist. No. 5 says he is concerned about taxes. I find this hard to believe. If that is the case his conscience should bother him when he and his committee slap the people in the face with the budget. If our Commissioners had the welfare of the county at heart, they would take a long hard look at their own operations. They could start with the committees. I am wondering if they all are necessary. I notice in the letter from the commissioner to the voters of No. 5 district he lists 7 committees that he is Chairman of. Take No. 1 Northeast Mich. Council of Gvt. No. 2 Northeast Mich. Community Service. I guess I have been out of the swing of things too long and am pretty ignorant. But just what in the world are these committees for and how do they benefit the people of Crawford County. No. 4 and No. 7. Both are health committees. Now

would it be possible to combine these two, thus doing away with one of the programs. We only had one health program. Maybe the state says they have to do it this way. But as I said I am very ignorant about all this and maybe someone would clue me in. The commissioner from Dist. No. 5 states that all these committees require him to travel to other communities thus causing travel and expense time. Naturally. How many of you readers read the Board minutes each month? If you do, you must notice the salaries they pay themselves. No wonder they fight to stay in office. It can be a pretty lucrative job. I am no longer a voter in Crawford County but if I could vote there, I would vote for Don Welser. No, I do not have rocks in my head and yes I do know that he is not so popular in some circles. Why? Because he is a "Snooper". Politicians and their followers do not like "Snoopers". They do not like people prying into their minutes to see how much money is spent needlessly and they don't like to be told they are wasting someone else's money. I have worked with Don on many committees and I have noticed he always worked with one goal in mind. The Good of the People. They always say a new broom sweeps clean and you remember some of our former commissioners were swept out of office because of high salaries and too many special meetings. We have three excellent commissioners but they are overruled by the majority so I think it is time to get out the new broom. It just all boils down to this. Whether you like Don Welser personally or not does not matter. What matters is that he would be a good commissioner. Be glad you have a "snooper" in the community with your interests at heart. Put him in office and let him snooper. Who knows what he will come up with? You may be glad you did.

From Our Corner...

Election Fever, 1982...

While the eyes of voters in the State of Michigan focus on the outcome of who will take over the highest office in the state, now that Governor William Milliken is stepping down, the contest between the Republican standard bearer, Richard Headlee and Democratic standard bearer, James Blanchard, is the focal point of the upcoming election...along with the governor race, other major seats that are up for grabs...Secretary of State, Attorney General and Trustees to the various Universities and Colleges will be voted for...

In the Congressional race, United States Senator and Representative in Congress in the various districts throughout Michigan...and for the Legislative, State Senators and State Representatives will be elected...

While the voters will have decisions to make for the above offices, here in Crawford County there will be four races to decide on...

On the County level, Nancy Krey, present clerk and register of deeds who was appointed to the post on the resignation of Leo E. Lovely, and won the Republican nomination in the primary will be opposed by Elizabeth Wieland the Democratic nominee, who is presently Clerk of Grayling Township...

For the opening on the Crawford County Road Commission, incumbent Democrat Grover "Casey" Cason will be opposed by Republican nominee, Gary Willoughby...

For seats on the Board of Commissioners...In Dist. Four, incumbent, Larry Mattis is being challenged by sticker candidate Earl "Ted" Johnston, for the two year term...

In District Five, Don Welser, nominee for the office over Walter Nowak in the primary election, is being opposed by Nowak in the general election as a sticker or write-in candidate...

As for the Proposals on the ballot...there is no way we can convey how a person should vote on each of them...the ol' fella doesn't know at this time how we are going to decide...all we can say read those down state dailies they are the ones who have those smart reporters who will give you their opinions & then you can go from there...we won't know until Tues., Nov. 2nd, when we write the Proposal number and how we will vote on our hand and enter the voting booth...

The most important aspect of an election is for the voter to get out and vote...it doesn't hurt abit, and you will be serving your country by exercising your right to cast your ballot...there are many countries that do not have the choice that the United States affords you...

We were concerned Sunday afternoon when we heard of our ol' golf partner, Hookielau, Dr. Ralph Hoffman to most of our readers had a heart attack in Canada while up there with a group that own a cabin and were getting in firewood and getting the cabin set for winter when they go up for ice fishing...last reports he was doing OK and is in Sault Ste. Marie, Canada's General Hospital and will be there 7 to 10 days before he will be able to be transported home...anyone wishing to send cards may do so to the above hospital in Soo Ste. Marie, Ontario, Canada...

Much concern is being taken over whether parents should allow their children to go out Halloween night for trick or treating...well they should be...if, we were parents of those involved, we're sure we would take them to one's we know or to relatives...it is a shame that paranoid people should lurk in the darkness...more and more it is becoming a sick world where there is no trust in anyone...use caution...

This takes care of this week's efforts...did you notice we didn't write turkey...anyhow, goodnight T.J., Stefancy and Amber...and to all our readers, have a nice weekend, hope for one like the last...

The Bible Speaks

From Calvary Baptist Church

Does Infant Baptism Save?

The eternal destiny of the human soul is the most important matter any human can consider for his own welfare. To know God, and to have assurance you will spend eternity with Him in Heaven is the greatest truth man can gain. In a country with religious freedom, it would be most unloving, cruel and even immoral not to warn individuals of any false confidence which might endanger their immortal soul and their eternal destiny. Prayfully consider the following:

1. Infant Baptism gives the CHOICE to the wrong person. Individual responsibility and choice is ignored. If you are trusting your infant baptism for salvation, you are trusting a decision of your parents. The Bible teaches God electing or choosing unto salvation and man individually responsible to make his calling and election sure. (2 Peter 1:1-11)

2. Infant Baptism rests upon the wrong AUTHORITY. Since infant baptism is not taught or practiced in the Bible, the authority rests upon the church which practices it. To trust infant baptism for salvation is to trust church authority rather than the authority of God's Word, the Bible.

3. Infant Baptism places baptism at the wrong TIME. Babies do not qualify for or need baptism yet. Look up our column of 2/8/79 for 7 Bible reasons why all dead babies go to Heaven. It is unsupportable and cruel to tell parents that God will not permit their baby to enter Heaven because no water was sprinkled on his head.

4. Infant Baptism is given to the wrong CANDIDATE. Baptism in the Bible is consistently administered to believers who request it. Since a baby cannot exercise faith by believing the gospel of Jesus Christ, he is not a candidate for baptism. (Acts

2:41; Acts 8:12; Acts 8:35-38; Acts 10:44, 47; Acts 16:30-34)

5. Infant Baptism uses the wrong METHOD. You cannot find baptism by sprinkling in the Bible. Jesus walked 17 miles from Galilee to the Jordan river to be baptized. (Matt 3:13) "And John also was baptizing in Enon, near to Salim, because there was much water there." John 3:23. Even the word "baptize" is the Greek word "baptizo" transliterated into English. The Greek word means to dip, immerse or submerge. Sprinkling is church dogma or tradition. Bible believer's baptism is by immersion only.

6. Infant Baptism gives the wrong TESTIMONY. Water baptism by immersion is the believer's first public testimony of their identity with the person of Jesus Christ in His death, burial and resurrection for their sins. Romans 6:3-5. Infant Baptism is a testimony of different things in different churches according to their church dogma or tradition. To some it is regeneration, to some the promise of regeneration, and to others the parents promise to raise the baby properly.

7. Infant Baptism gives the choice of CHURCH MEMBERSHIP to the wrong people. In many churches, baptized babies are added to the membership of the church by will of the parents and church. Individual responsibility and choice is ignored.

Soul liberty is a historical Baptist distinctive. The Bible teaches us that God holds each individual personally responsible for his salvation, baptism and church membership. The authority upon which you rest your salvation will determine the destiny of your eternal soul. The responsibility is yours! (adv.)

Deer-Car Accidents Top 21,000 in State

About 10 percent of the estimated 200,000 Michigan deer which will be killed this year won't die from arrows or bullets - they'll be hit by cars, the Michigan Dept. of Transportation (MDOT) said today.

Michigan motorists are now entering the most dangerous period of the year for deer-car accidents. Last year, 21,242 such accidents were reported, and most occurred during the period from October through December.

The accidents resulted in two deaths, 1,159 injuries and an estimated \$20.8 million in property damage, or an average of \$980 per accident.

"That's an expensive way to get a deer," said Joe Vogt, wildlife biologist for the Mich. Dept. of Natural Resources.

The accidents also took their toll on deer: wildlife biologists say that nearly all deer involved in accidents with vehicles are killed, although many limp away from the accident scene to die in the woods or fields.

The highest number of deer-car accidents in 1981 occurred in the central portion of the southern half of the Lower Peninsula. Kent County reported 898 accidents, the most in the state,

followed by 693 in Calhoun County.

Several factors contribute to the higher number of accidents during late autumn.

Fall is their "rutting," or mating season, which reaches its peak in November, and produces increased deer activity.

Deer also tend to congregate in "yards," or low places with dense vegetation, once food supplies become sparse and the weather colder. Many major highways cross directly through deer yards.

Hunting also contributes to increased deer activity in late autumn.

Although the deer population is down this year from last, there are still about 1.4 million of them out there. To avoid a tragic accident with a deer, the Michigan Dept. of Transportation offers these tips to drivers:

- Stay alert, and be aware that a deer may leap out in front of your car at any time.
- Deer are most active in the early morning and evening hours. Be particularly wary at these times.
- Deer usually travel in small groups. If you spot one, chances are there will be more in the vicinity.
- When driving in the dark, look for a pair of bright, whitish eyes which appear to be well off the ground. If you spot them, slow down immediately.
- Wear your seat belt, and be sure your passengers do the same.

If you kill a deer while driving you are allowed to keep it, but you must contact the nearest law enforcement office to fill out an accident report.

State Gives Final Approval To \$500 Million Loan

Warren M. Hoyt, Executive Director, MPA

A state board has given final approval to a \$500 million short-term loan supported in an annual arrangement through letters of credit by Japanese banks.

The banks' backing helped with an interest rate of 6 percent, which underwriters said was the lowest rate since at least 1979.

The loan was approved by the State Administrative Board after the governor's office arranged the credit arrangement with the Japanese banks.

David Lewis of the Lewis, White and Clay law firm in Detroit which served as counsel for the transaction, called the low interest rate a measure of brilliance.

The rate is over 8 points below the rate obtained in the \$500 million notes sold last year.

Other experts said the state was also fortunate in hitting a "three and a half hour window" of low interest rates which saved the state about \$2.5 million in interest.

The letters of credit total \$527.4 million, which guarantees the Japanese banks will pay the principle and interest in two September installments next year if the state is unable to do so.

Representatives of the banks attended the board meeting at which final approval was granted.

The Japanese backing won the notes the highest credit rating possible. The money is expected to be in the hands of state officials by October 19.

Meanwhile, on October 19, the state is expected to pay back a \$100 million 19-day note from nine Michigan banks, using revenues which has been received since the first of the year.

Judge Says Pay Hike
Reversal Illegal
Ingham County Circuit Court

Judge Ray Hotchkiss has ruled the Civil Service Commission exceeded its authority when it deferred a 5 percent pay hike and vision care insurance for 17,000 employees outside the collective bargaining system.

Hotchkiss signed an order which reinstates the raise retroactive to October after listening to state attorneys making a motion to put a stay on the order.

Bea Goree of the Office of State Employer said the stay would be sought while the state appeals the ruling to the Court of Appeals.

She said it would cost the state \$23.5 million to pay the increase.

The state contends the commission had the authority to reconsider its decision of last December.

After holding hearings, the commission ordered the pay hike, which was not rejected by the Legislature, to be deferred until October 1, 1983.

Hotchkiss said because the pay plan had already gone through the administrative process outlined in the constitution, the commission acted arbitrarily and its action lacked due process. He added it was a derogation of the legal rights of employees.

Dale Threehouse of the Michigan Association of Governmental Employees, said they are concerned about the establishment of a precedent in the case.

He said if government employees can be treated so arbitrarily, the state will have a hard time recruiting supervisory employees.

Threehouse said his group always has and is still working to discuss alternative ways to reduce employee costs by the amount that would be saved by the wage hike deferral.

Others in the suit are the Michigan State Command Officers Association and the Michigan Society of Engineers and Administrators.

Sue Prause Stars In CMU Production

Sue Prause, a CMU sophomore from Grayling, received fine reviews for her performance in the lead role of "The Secret Affairs of Mildred Wild."

A review by Roger Hitts in the Oct. 15th issue of CM Life said "Prause is a talent of major note, as she can make you laugh, cry, and feel empathy, often all at the same time. So impressive was Prause's performance that one could completely forget a 19-year-old college student was performing; she became Mildred in all her starry-eyed glory."

Hitts said the comedy would have failed without an animated Mildred. With Prause in the lead role the production was called funny, warm, and introspective.

Prause is the daughter of L. Gayle and Robert Prause, both of Grayling.

Cancer Society Holds Workshop

The American Cancer Society held a workshop for volunteers in the Northern Michigan area on October 15th at the Embers in Traverse City. Four board members from the Crawford unit attended. They were JoAnn Olsen, Vice-President; Rose Duley, Public Education Chairman; Marilyn Fick, Memorials Chairman; and Florence Hough, Public Information Chairman.

The general session opened with speaker Donald Brewster, Executive Vice-President of the Michigan Division of ACS. Mr. Brewster gave a brief history of this organization which began in 1913 and was known as the American Society for Control of Cancer. \$10,000 was raised that year. By 1945, 4 million dollars was raised, and one quarter of this went to research. This was the beginning of a real attempt to find the answers to cancer through research.

In 1982 this national organization now has international ramifications. There are 3 million volunteers in this health organization dedicated to the final eradication of cancer. The by-laws of the society state that when a cancer cure is found, the ACS will disband. Statistics show that at the present time one out of 3 is cured of cancer. But Mr. Brewster pointed out that is would be one out of two if the public would observe the seven warning signs and the dangers of smoking.

The volunteers then attended several workshops in their program areas. New information was given by staff members along with helpful hints and the showing of ideas. The purpose of the workshop was to enable volunteers to better implement programs in effective cancer control.

Crawford County United Way Fund Drive

October is United Way month in Crawford County as well as many areas across the country.

Thirty-two agencies currently benefit from funds raised locally & in return these agencies provide services to families, & individuals in Crawford County.

Local agencies include Boy Scouts & Girl Scouts, Day Care Center, 4-H, Youth Services Bureau, Sibs for Kids, & Community, Family & Children Services, which provides an adoption service & foster home care.

In addition, United Way of Michigan provides funding to many state & national agencies which in turn provide services to local residents.

If each person gives, then the burden of care is shared...truly, "The community that cares...shares".

Give to United Way when a worker calls on you or give through the campaign mailing.

Editor's Mailbox

Oct. 21, 1982
 Citizens of Crawford County, especially District 7,

Mr. Bud Joyce must think I'm another politician. I'm not. His rebuttal of my letter was pure politicking. The point of my letter, as he did acknowledge, was that concerned citizens were not allowed to speak at the Truth in Taxation "meeting". I do believe in Representative Government and the right of the People to Voice their concerns. Like Them or Not! Even though Mr. Joyce is running unopposed for Dist. 7 Commissioner, I question his use of my letter for his political gains or losses.

He also mentioned a reduction in millage, but don't be fooled. The millage is lower but the assessments are higher, which equals more tax money.

Local B.P. Club Hosts Meeting

The Grayling Business and Professional Club was host to the District 3 Clubs on Sunday, Oct. 17th, at the Holiday Inn. Six clubs were represented at this meeting.

Betsey McCune, District Director called the meeting to order.

Guests were introduced, Mrs. Jean Kalbflesch, State President and Mrs. Deborah O'Connor, State Representative and Pat Ramsey, District Director of Dist. 2.

Committee chairmen reported on various activities of the clubs within this District.

The State President, Jean, reported on her activities as president. Deborah O'Connor gave a report on the WAIII meeting of the state. Woman's image was promoted, especially in work fields and politics. Mrs. O'Connor is a member of the Canton Club. Mrs. Kolbflesch is a member of the St. Ignace Club.

The Grayling Club has 15 members at the present time and is always happy to receive a new member. Membership is open to any employed woman. This club sponsors the Crawford County Community Services Project.

We receive much help from RSVP. They do a great deal of knitting and sewing for the club.

"Politics Makes Strange Bedfellows"

In this election year two Michigan civic leaders are surprised to find themselves involved in an unusual coalition to protect the interests of their constituencies.

James Barrett, president of the Michigan State Chamber of Commerce, and Stanford D. Arnold, secretary-treasurer of the Michigan State Building and Construction Trades Council, are working together with Citizens for Michigan Jobs and Energy to fight Proposal D. D is a controversial initiative, put on the ballot by the Michigan Citizens Lobby, which would eliminate the "automatic" fuel adjustment clause on utility bills but, because of hearing delays, could force utility companies to borrow money in order to continue operating.

Arnold's primary concern is jobs. Utility companies are the state's largest single employer of construction workers.

"If the MCL initiative is passed, the financing of construction will be seriously jeopardized," says Arnold. "And if utility construction projects are stopped, thousands of construction workers will be out of a job."

Arnold points out, however, that it is not only construction jobs that would be lost if Proposal D passes.

"Consider as well the availability of emergency fuel reserves. If utilities were forced to restrict their fuel supplies to avoid borrowing at today's interest rates, we could be caught short of fuel in the event of unexpected severe weather. And major industrial users are the first to lose energy supplies when fuel runs short. Then when bad weather hits, Michigan workers would be out of jobs — for days — even weeks."

Barrett's concern is for business and industry in Michigan, and the state's prospects for economic recovery. But the bottom line is still jobs.

"Proposal D is dangerous to Michigan's economic climate because it could have an adverse effect on our employment picture," says Barrett. "It also could cripple the long-range capacity of utility companies to offer reliable energy service at reasonable rates."

"It poses a very real threat to the capacity of utility companies to provide reliable, efficient service to industrial and commercial customers. As a result, prospective business and industrial energy users may think twice before saying 'yes' to Michigan as the location for a new production plant or commercial facility."

Barrett and Arnold agree that the problem with Proposal D is

Stanford D. Arnold

James Barrett

that it permits only one rate hearing before the Public Service Commission per utility at a time. That would be a cumbersome process that could lead to higher interest rates on operating funds — a cost that would be reflected in higher utility bills and could eventually result in service cutbacks.

Both men are backing another ballot proposal, Proposal H, which they say would "allow utility firms to recover, after Commission scrutiny, month-to-month costs of doing business in a timely manner, reducing their need to borrow operating funds at unreasonably high interest rates."

They are joined in the CMJE coalition by other business, labor and civic groups, plus the Michigan Farm Bureau and a number of individuals throughout the state.

Altogether, it is an unusual coalition of Michiganders fighting to defeat a proposal that would mean further economic disaster for the state.

Caution Required With Stoves

Improper installation and use of wood or coal burning stoves can make them potential killers. Popular for their economy and just plain old-fashioned "charm", these stoves are the source of a growing number of home fires and fire deaths, warns the National Fire Protection Association and Mercy Hospital of Grayling.

These are the main causes of stove fires, says NFPA: Improper installation of the stove and chimney connector/stove pipe; Not enough space between the stove apparatus and combustible floors, walls and furnishings; Poor operating practices, such as in fueling and in using the damper; and lack of maintenance of the stove, the chimney system and other heating equipment.

Wood and coal stoves should be used only where permitted by local fire and building codes, NFPA and Mercy point out. Buy only a stove "listed" by a recognized testing laboratory, then following

the maker's directions for installation and use.

In general, any stove should be installed at least 3 feet from ordinary combustible walls and ceilings, and should be on a noncombustible base — such as metal or brick — extending at least 18 inches beyond the stove in all directions.

Here are some suggestions from NFPA and Mercy Hospital for avoiding fire problems related to chimneys. Use only a chimney approved for use with a wood or coal stove, "listed" if factory-built.

Seal off any unused flues in the chimney, and don't connect a stove to a chimney burning other fuel such as gas or oil. Keep the chimney clean, free of creosote build up, and free of nests and other obstructions. Make sure the bricks and mortar are always in good condition; otherwise, flames can penetrate crevices in the brick work and ignite wood construction.

Qualified stove installers follow other specifications that apply to the chimney connector/stove pipe — the metal pipe that conducts flue gases from the stove to the chimney and into the open air. It's important to keep harmful gases from seeping into the house where they can cause people inside to lose consciousness and even die.

When bringing wood or coal indoors, store it at least 3 feet from the stove so it won't start to burn from radiated heat. Never burn trash as a fuel — the fire could get out of hand, "gum up" the chimney, and turn any aerosol containers into dangerous projectiles.

Also cautions NFPA, never use charcoal indoors — it gives off carbon monoxide which can be deadly.

Before lighting a stove fire, be sure to open the damper. Stay with the fire until it's burning steadily, and remember to use caution when leaving the house or going to bed with a fire still burning. Keep the stove clean and in good working condition; don't let ashes build up.

Senior Citizen Homemaker Service

by Joyce Hankins

Are you going to have some free time this fall and winter? Would you like to see a lonely face brighten up? Then you are a very good candidate for the Friendly Visiting Program. If you would just visit one of these many lonely handicapped Senior Citizens you would feel like getting on your hands and knees and thank the good Lord for your blessings. During the fall and especially our extremely long winters these people are victims of loneliness more than ever. Since I have been a part of the Grayling Senior Citizen Center I have seen remarkable changes in these homebound people. Many times this change is due to their Friendly Visitor, Telephone Reassurance Caller and or their Homemaker. If you would like more information about these very important and helpful volunteer programs please call the Senior Citizen Center (348-9314) I will be more than happy to give you more information.

Many people ask "What is Homemaker Service?" Homemaker Service is assistance in performing routine household activities to maintain an adequate living environment for the individual. These services are offered to any Crawford County Citizen that is 60 years of age or older and is unable to do these homemaking tasks. The Homemaker Programs main function is to help people just released from the hospital while recuperating from surgery, prolonged illness, injury, arthritis or other handicaps. The purpose is to shorten their hospital time and prevent them from being placed in an institution if possible. Homemaking tasks might include light housekeeping, meal preparation, laundry services, grocery shopping and occasional transportation to medical appointments.

If you need the Homemaker Service or know of anyone that does please call the Senior Citizen Center at (348-9314).

La Leche League Meeting Notice

If your family is awaiting the arrival of a new member, the Grayling-Roscommon La Leche League meeting, "Baby Arrives: The Family and the Breastfed Baby," may interest you. Informal discussion will center on how to manage those first hectic weeks with emphasis on the entire family as well as timely tips for the nursing mother and baby.

The importance of breastfeeding is stressed, not as an end in itself, but as an integral part of the whole human relationship.

The meeting will be held on Thursday, November 4 at 7:30 p.m. at 810 Plum Street, Grayling.

Expectant mothers are encouraged to attend the series of meetings before the baby arrives. Any woman interested in breastfeeding is welcome; babies are always welcome. For further information, or for breastfeeding help, call Carolyn Crist at 275-9431.

Lucksted Scores 3 TDs for GVSC

Bill Lucksted, a 1980 GHS graduate, grabbed three touchdown passes and gained 136 yards in one game against Northern Michigan Oct. 16th.

Lucksted's team, Grand Valley State College, were overcome in the fourth quarter to lose 47-29 to highly ranked Northern, 6-1 for the year. GVSC took on Hillsdale last Saturday in a battle of undefeated league teams, GVSC with a 2-0 Great Lakes Conference mark and Hillsdale with a 3-0 mark.

Although the defeat by Northern was hard to swallow for GVSC coach Jim Harkema after being ahead 29-13, he found a positive note saying Lucksted came into his own catching four passes for 136 yards and three TDs.

The junior receiver has helped GVSC post a 4-2 record going into the Hillsdale game.

RSVP Reports

Sherry Haag, Director
Welcome to news of the Retired Senior Volunteer Program. This week I'll be discussing volunteer activities at more stations served by RSVP members. Many RSVP volunteers are involved in the Telephone Reassurance and Friendly Visitor programs. Volunteers call shut-ins and homebound on a daily basis at a time set by both persons involved. If there is no answer, the caller will contact an emergency number with the information and that emergency contact checks to see if there has been an accident or illness and makes necessary arrangements. This service provides many benefits to the homebound and shut-in. In many cases, these persons would be unable to remain in their homes without this service. Plus, it makes it possible for the homebound and shut-in to keep in touch with the outside world.

Many RSVP volunteers act as friendly visitors to homebound, shut-ins, and residents of the areas adult foster care homes. The volunteer goes to a requesting persons home for approximately 1 hour to talk, play cards or whatever the person would like to do. This activity helps keep the homebound and shut-in aware of what's going on outside their restricted surroundings. Also, it gives them a chance to see a new face or home skills in an old activity. Both visitors and the person being visited benefit from the relationship. Visiting programs are also set up with Timberview Village and Matson's Milltown Manor. Volunteers visit these adult foster care homes on a weekly or monthly basis. While there, they chat with residents and play cards or other games. This has proven to be a very positive experience for both resident and visitor.

The two community nurseries also have volunteers helping with the small children. RSVP volunteers are serving the broad spectrum of ages from the very young to the very old. Using their experience and skills, these are just several more places where seniors through the Retired Senior Volunteer Program are continuing to serve their community.

RSVP will be starting a new project. Volunteers will be working with the Crawford County Sheriff's Dept. on Operation Identification. This is a Crime Prevention Program using volunteers to mark valuables with drivers license numbers or social security numbers. Training and information will be provided by the Sheriff's Dept. All equipment will be furnished and mileage reimbursement will be available. If you are 60 years of age or older, and would be interested, please give us a call. The number is 348-4341 or 348-8322, 8 a.m. to 5 p.m., Monday through Friday. This is a way for you to help your neighbors and friends prevent crime.

TO THE CUSTOMERS OF MICHIGAN CONSOLIDATED GAS COMPANY

(Published by Direction of the
Michigan Public Service Commission)

Case No. U-6839 (CPI—Nov. '82)

NOTICE OF HEARING ON IMPLEMENTATION OF OPERATION AND MAINTENANCE CONTROL BY INDEXING SYSTEM

In its Opinion and Order dated November 6, 1979 in Case No. U-5955, this Commission established an Operation and Maintenance Expense Control By Indexing System for rate schedule customers of Michigan Consolidated Gas Company (MichCon). That system authorizes an annual change in the portion of MichCon's jurisdictional rates and charges attributable to certain operation and maintenance (O&M) expenses, other than purchased gas and uncollectible gas accounts, in accordance with changes in the Consumer Price Index (CPI). The system was continued by this Commission in its Opinion and Order in Case No. U-6372 dated January 30, 1981 and in its Opinion and Order in Case No. U-6839 dated July 30, 1982.

The Commission found in its Opinion and Order in Case No. U-6372 (CPI—Nov. '81) dated January 5, 1982, that a reasonable Operation and Maintenance Expense Control By Indexing System base amount for use in determining the 1983 surcharge should be \$171,062,000. Thereafter, in its Opinion and Order in Case No. U-6839 dated July 30, 1982, the Commission found that the O&M portion of the monthly meter reading program of \$3,309,000 should be added to the base amount, for a total base amount of \$174,371,000. Based upon the methodology established by the Commission in its Opinion and Order dated November 6, 1979 in Case No. U-5955, the adjustment is to be computed at the 1982 hearing as follows:

- (1) Determine the percentage change in the All Items, Wage Earners and Clerical Workers Revised, Unadjusted, National CPI between August of the year prior to the November hearing year and August of the hearing year. The 1982 hearing will determine the percent change in the CPI between August 1981 and August 1982.
- (2) Calculate the allowable change in "other O&M" expense by multiplying the base amount of \$174,371,000 by the percentage change in the All Items National CPI as determined in Step (1). The base amount plus the allowable change will be the new base amount for the next hearing, not the actual other O&M expense which Applicant may have. For the purpose of major rate cases, the base amount plus the total allowable changes will become a new base amount and included as such in the rates.
- (3) Calculate the allowable change per Mcf by dividing the allowable change determined in Step (2) by the 12-months' total jurisdictional gas sales of 394,964,432 Mcf as determined in Case No. U-6839. The total jurisdictional gas sales as deter-

mined in the latest rate case should be used in subsequent indexing hearings until a new figure is set in a new major rate case.

- (4) The amount per Ccf or therm should be applied to customers' bills for total jurisdictional gas sales starting with the January billing month following the November hearing.

Based upon that methodology, MichCon has requested that its commodity charges be increased pursuant to the Operation and Maintenance Expense Control By Indexing System by an additional .254¢ per Ccf, or .250¢ per therm, beginning in January, 1983. MichCon represents that the annual bill for a typical residential heating customer using 162 Mcf would increase by about \$4.11 as a result of the proposed surcharge (an annual revenue increase to Applicant of approximately \$10,026,000).

Jurisdiction is pursuant to 1909 PA 300, as amended, MCLA 462.2 et seq.; Section 4 of 1919 PA 419, as amended, MCLA 460.54; Sections 4, 6, 6a and 6b of 1939 PA 3, as amended, MCLA 460.4, 460.6, 460.6a and 460.6b; Section 3 of 1923 PA 238, as amended, MCLA 486.253; 1969 PA 306, as amended, MCLA 24.201 et seq.; and the Commission's Rules of Practice and Procedure, 1979 Administrative Code, R 460.11 et seq.

NOTICE IS HEREBY GIVEN THAT:

A. A public hearing in this matter will be held at 9:30 a.m. on November 10, 1982 in the offices of the Commission, Mercantile Building, 6545 Mercantile Way, Lansing, Michigan, for the purpose of determining the percent increase in the CPI between August 1981 and August 1982 and the corresponding surcharge to be applied to all customers' bills. Any interested persons may attend the hearing and participate, subject to the provisions of the Commission's Rules of Practice and Procedure.

B. Any person seeking to intervene, in accordance with Rule 11 of the Rules of Practice and Procedure Before the Commission, shall file with the Commission, on or before November 5, 1982, an original and 12 copies of a petition to intervene, together with proof of service upon Applicant.

Subparagraph (2) of said Rule 11 provides as follows: "(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the Commission of the specific issues of fact or law to be raised or controverted." (Emphasis added)

Girls Roll, Win 2 Beat League Leader

Grayling went on a roll last week knocking off league leader Petoskey 54-35 & beating Rogers City 58-44.

The girls improved their league record to 5-3 by whipping Petoskey, who had won 8 in a row before coming to

the Grayling gym. The girls set a GHS record for the most league victories by the varsity girls basketball team with their fourth and fifth wins.

Heidi Bendig burned the nets for 41 points in the two games. Against Rogers City she scored 19 points - all in the first half. She hit for 22 points against Petoskey to become the first GHS player to reach 20 or more points this year.

Kris Laudenslager scored 14 against Petoskey and added six against Rogers City. Michelle Barber, brought up from the J.V. squad, scored 8 points against Rogers City in her first varsity game. Barber and Laudenslager combined to haul down 24 rebounds against Rogers, each grabbing 12. Celina Eshenroder joined Barber and Laudenslager in grabbing a total of 30 rebounds against Petoskey.

Against Rogers City, Jenny Riker put in 8 points and head coach Tom Mills said she played a fine floor game. Other scorers against Rogers were Karyn Reynolds with 5, Eshenroder 4, Stacey Wolcott 2, Joan and Joyce Stevens 2 each, and Wendy Savallisch 2.

Karyn Reynolds hit for double figures against Petoskey scoring 10. Rounding out the scoring for Grayling were Riker 2, Barber 2, Wolcott 2, and Lisa LaMotte 2.

Mills said his team outthusted Petoskey, played more aggressive, and played tougher defense than Petoskey. Grayling was able to shut down Petoskey's two six-foot players. Grayling hit 22/61 from the floor and 10/19 from the line. Petoskey shot 16/71 and hit only 3/13 from the line. Every player for the Vikings got in the game against the league leaders and Mills said the girls played well with high intensity.

Sibs for Kids

Sibs for Kids is one of the local programs partially funded by United Way. October is the month for the United Way campaign & we would like to urge everyone to support the fundraising campaign.

There are canisters in stores (these were made by 4-H members which receive some United Way funds), or you may have someone contact you at home or work.

When contacted, remember that your gift or pledge along with those of others combine to bring many needed services to residents of Crawford County.

Truly the community that cares...shares.

Show you care - give the United Way & also find out more about becoming a Big Brother or Sister to some child who needs you. Call 348-2841 ext. 282 or stop by our office at West M-72.

"Have A Few Laughs"

Written by Will Rogers

Ain't it a funny thing, folks? Everything in the world is doing fine but humans. Why is that? Flowers had a great year. Animals had no complaints, and trees doing good. Everything that God had a hand in seems to be doing good. It's just when something comes under the supervision of man that it's cockeyed.

Just remember, though, this is a great country, by golly. We got our problems, though, don't we. Remember a few years back, people was saying, "Things can't go on this way." And they were right, they got worse.

We got our problems. My goodness, politicians are always saying, "I'm for law enforcement." That's like an aviator saying, "I'm for tail winds." Who ain't? The trick is to try and get one, see.

I got a solution for the crime problem, folks. Just legalize it and put a heavy tax on it, that's all. Well, we tax some of our biggest businesses right out of existence. It might work with crime, you can't tell.

But I believe things ain't quite as bad as we feel. The kids don't

think the politicians can get us out of this mess. But I think they can. I mean, why not - ignorance got us in...

Well, it's time to wrap up this little clambake. I don't give advice, but boy, if I did, I'd say you're only on this world a very short time. Have a few laughs and don't take things too seriously, especially yourselves.

As for me, when I finish this lecture tour I'm going to fly with Wiley Post to Alaska. I want to touch base with them Eskimos up there, tell them that old gag about the grass growing and the water flowing, warn them about politicians.

You know, people always say to me, "How do you get away with kidding the politicians?" For heaven's sakes, they're mostly friends of mine, really. And if there is no malice in your heart, there can be none in your gags. I suppose my epitaph should read that I've kidded about every prominent man in my time, but, well, I've never met a man I didn't like.

Good-night, folks.

the Tenth District Congressional Race

Many of us in the Tenth Congressional District are very concerned that Larry Reed is a graduate of NCPAC Training School.

Both political parties have condemned NCPAC and its sad assault on our democratic process.

The following are statements and policies of NCPAC:

Quotations from John (Terry) Dolan NCPAC Chairman:

"A group like ours could lie through its teeth and the candidate it helps stays clean."
--Washington Post, 8-10-80

"Groups like ours are potentially very dangerous to the political process. We could be a menace."
--Washington Post, 8-10-80

"We could elect Mickey Mouse to the House or Senate."
--KUTV, Salt Lake City, 3-23-80

NCPAC's 1983 BUDGET PROPOSAL INCLUDES THE FOLLOWING:

- * cut all highway construction and improvements
- * cut all Federal education programs
- * cut several Federal agriculture programs
- * cut all Federal revenue sharing
- * cut the National Institutes of Health by 50%
- * cut Medicaid and Medicare by 10%
- * dismantle the Veteran's Administration hospital system
- * eliminate the Social Security minimum benefit

STATE SENATE

MY OPPONENT TAKES CREDIT FOR EIGHT YEARS' EXPERIENCE IN STATE GOVERNMENT. WILL SHE ALSO TAKE CREDIT FOR:

1. An 11% rate of absenteeism of the roll call votes in the State House of Representatives since 1980.
2. Voting to give \$800,000 of your tax dollars in support of the Pontiac Silverdome.
3. Voting against a freeze in property taxes that would have given needed relief to residents of Northern Michigan.
4. Failing to vote on the Family Farm Development Act which would have provided new farmers with financial assistance.

Consider these things along with the eight years' experience and make your vote count on November 2nd.
Michigan deserves a full-time legislator.

Get Michigan Working Again

**Headlee
for
Governor**

**Ruppe
for
Senator**

**Philip E. Ruppe - U.S. Congressman
(1967-1979)**

Phil Ruppe's expertise and dedication to the health and well-being of Michigan citizens are a testimonial to his ability to provide Michigan the leadership it needs in the U.S. Senate to get Michigan moving again. He worked for more jobs for Michigan people, payments in lieu of taxes for federal lands in our district, energy development, promoting utilization of the Great Lakes and protecting the environment.

Your Republican Action Team

Michigan's Action Team

BRENNAN for Lt. Governor
HEADLEE for Governor
ANDRUS for Secretary of State
PATTERSON for Attorney General

In my travels throughout Michigan, I have been impressed with the beauty of our state, its bountiful resources and the strength of its people.

There is nothing wrong with Michigan except its government—and with the right leadership, that can be corrected.

We need "common sense" leadership. Our state can no longer support a costly bureaucracy at the expense of our children's education and higher property taxes. Government can no longer be soft on the criminal and ignore the rights of the victim. No longer can government spend beyond its means. When our belts tighten, so must the belts of the tax spenders.

Michigan needs a Governor who will provide bold, creative take-charge leadership to solve Michigan's problems.

That is why I am asking Michigan voters to support the Headlee/Brennan "action team" — Dick Headlee, Governor; Tom Brennan, Lt. Governor; Brooks Patterson, Attorney General; and Beth Andrus, Secretary of State.

As a business leader, I have turned two failing Michigan companies into successful, job-creating operations. As chairman of the Michigan Chamber of Commerce with over 6,000 small and medium-size businesses, I know the concerns of business in creating jobs for Michigan's unemployed workers. As chairman of Oakland University Board of Trustees, I have worked hard to maintain a quality education system for our children.

Tom Brennan, a former Chief Justice of the Michigan Supreme Court and founder of the Thomas M. Cooley Law School in Lansing, brings business leadership qualities, as well as a solid background in criminal justice, the court system and education. As Lt. Governor he will do more than "preside over the Senate and check the Governor's health" each morning.

Brooks Patterson is a successful prosecutor from Oakland County. As attorney general he will deal swiftly and surely with the criminal element in Michigan — from drug pushers to child abusers.

Beth Andrus would bring to the Secretary of State's office, a strong business background with solid management skills. She will work to streamline the effectiveness of state government.

In addition, this party has nominated two fine candidates for the Supreme Court in Appeals Court Judge Dorothy Comstock Riley and Circuit Court Judge Ross Campbell.

Our candidates for the state educational governing boards will provide the experience and expertise necessary in providing a strategic planning for Michigan's higher education program.

And our legislative candidates for the Michigan House and Senate are well qualified to provide the legislative action necessary to attract business and create jobs.

From the top of the ticket on down, I urge Michigan voters to elect the Republican "action team" this fall. Michigan needs it. Together, we can get Michigan working again.

Dick Headlee
— Richard H. Headlee

Supreme Court

JUDGE ROSS CAMPBELL

have the years of trial bench experience, judicial restraint and common sense so much needed in the Michigan Supreme Court. I believe judges should judge, not legislate," says Supreme Court Justice Candidate Ross W. Campbell.

A Washtenaw County Circuit Judge with 15 years experience on the bench, Campbell says he wants to help change the legal system which is "slow and problematic" and "is simply not meeting the needs of our people."

Campbell, a 1945 West Point graduate, earned his law degree from the University of Michigan in 1955 and practiced in Ann Arbor before being elected a Probate Judge in 1967. He was appointed to the Circuit Court in 1969, and has been elected to two six-year terms.

State Board of Education

RONALD G. ERICKSON

Ronald G. Erickson, the Superintendent of Owendale-Gagetown Schools is eminently qualified to meet the responsibilities of the State Board of Education. Ron Erickson has spent twenty-two years pursuing the educational goals of freedom and fundamental rights for all students, starting from the grassroots level as a classroom instructor. The State Board of Education needs the unique blend of classroom and administrative experience that this distinguished candidate brings to the State Board of Education.

JUDGE DOROTHY COMSTOCK RILEY

Dorothy Comstock Riley, the first woman elected to the Michigan Court of Appeals, has been a successful leader in many endeavors. Judge Riley, who served an interim term on the Wayne County Circuit Court, was elected to the State Appellate bench in 1976 and re-elected in 1978 for a term ending January 1, 1985.

A past president of the Women Lawyers Association of Michigan, Judge Riley holds a B.A. degree in political science and a law degree from Wayne State University.

Judge Riley has practiced law for 32 years and formerly was a partner in the Detroit firm of Riley and Roumell. Earlier in her career, she was an attorney on the staff of the Wayne County Friend of the Court working in the area of family law, including divorce litigation, paternity cases and marriage counseling.

MSU Board of Trustees

LAURA HEUSER

Laura Heuser's management and agricultural background as Vice President of Hilltop Orchards, one of the largest fruit producing farms in Michigan, eminently qualifies her for a position on the MSU Board of Trustees.

Mrs. Heuser graduated cum laude from the MSU School of Agriculture in 1949. She is the Chairman of the Land Trust Board of Michigan; co-founder of American Agri-Women and Women for Survival of Agriculture in Michigan and the first woman ever appointed to the Agricultural Council of America. Mrs. Heuser is also the recipient of numerous awards including the "Outstanding Alumnus" award from MSU in 1977.

In March of 1982, Mrs. Heuser and her husband Wally jointly received the "Distinguished Service to Agriculture" from the MSU Department of Agriculture and Natural Resources, the first couple to be so recognized.

U of M Board of Regents

ROCKWELL T. GUST, JR.

Rockwell T. Gust, Jr. who graduated from the University of Michigan Law School in 1949, brings superb administrative skills and an ability to work with and bring together people of various interests to the post of Board of Regents. Mr. Gust has served on numerous civic and governmental boards in addition to working as General Counsel to the Alexander Hamilton Life Insurance Company and establishing a private law practice. For his candidacy, Mr. Gust has called for the development of new programs in the private business sector to meet the economic challenges facing the University of Michigan in the 80's.

"The University of Michigan along with other state-funded institutions of learning are faced with a severe economic crisis due to drastic cutbacks in funding," Mr. Gust says. "Federal assistance for students has suffered the same fate. This has severely limited the University in its attempt to maintain the high standards for which it is internationally renowned. It is the challenge of developing these new programs that prompts my candidacy."

Wayne State University Board of Governors

DR. NANCY BOYKIN

Dr. Nancy Boykin is committed to making people aware that Wayne State University is a continuing success story. Mrs. Boykin is strongly qualified to implement that public awareness program with her extensive background in education and her variety of job experiences and present position as Director of Continuing Education for Girls for Detroit Public Schools.

Mrs. Boykin has Masters degrees in English and Social Work in addition to her Ph.D. in Educational Administration. She has also worked as a Consultant to the Department of the Army, as a Police Woman in Washington D.C. and as a social worker for the Department of Public Welfare.

She has been much in the news with her wide range of awards of recognition for outstanding community service. She has also received a number of Presidential appointments including the National Advisory Council to the President on Extension and Continuing Education.

GEORGE A. McMANUS, JR.

The owner and operator of a 500-acre fruit farm in Traverse City, George A. McManus, Jr. brings an outstanding, wide range of experiences to the post of MSU Board of Trustees. Mr. McManus was a former professor at MSU for twenty-two years, a district Marketing and Horticulture agent, the founder of numerous industry and grower cooperatives and the co-founder of the Northwest Fruit Research Station. Among his numerous awards is the President's Award from the Michigan Association of County Agriculture Agents, the Distinguished Faculty Award from MSU in 1981 and the Man of the Year Award from the Michigan State Horticultural Society.

"We must provide the essential research and development necessary to allow the expansion of our agricultural industry thereby enabling agriculture to provide the base for our state's economic recovery," McManus says.

ELLEN M. TEMPLIN

Ellen Templin, an honor graduate of the University of Michigan, recently culminated more than 20 years of civic and public service leadership with her election to the position of First Vice Chairperson of the Republican State Committee. Since taking office, Ms. Templin has spearheaded the drive within the Republican Party to involve women in key roles in state and local government. Ms. Templin's record proves she understands the need to expand educational opportunities for young people and can work effectively to provide each student the academic environment that allows him/her to develop their capacities to the fullest.

Templin says she will concentrate her efforts as a Regent of the University on continuing the philosophy of the University of Michigan, i.e., that a distinguished teaching faculty stimulates learning and that knowledge is advanced through research and other creative endeavors.

SAM TRENTACOSTA

The need to maintain reasonable tuition fees for students sparked Sam Trentacosta's interest in being a member of the Wayne State Board of Governors. As both an undergraduate and Law School graduate of Wayne State University, Trentacosta says his goal as a Board Member is to return Wayne State to a quality University. For the last 13 years, Mr. Trentacosta has been a private practicing attorney in Macomb County. Previously, he was a staff attorney for the S.S. Kresge Company and Michigan Consolidated Gas Company.

Use Safety While Cutting Firewood

(By Phyllis Green)

Fall is a desirable time of the year to be in northern Michigan's woods and is an excellent time to cut firewood. Cutting your own wood can help reduce home heating bills and can be a pleasurable experience. It is good exercise.

To ensure that you have a pleasurable and profitable experience cutting firewood, safety considerations are a must. One important precaution is never to work in the forest alone. Take a companion along - the work will

go faster and help will be available if an accident occurs. Proper clothing is also important. Wear comfortable clothes that are not loose and floppy. Steel-toed safety boots should be mandatory, as well as a hard hat. Goggles or eye protectors are recommended to deflect flying chips, and heavy leather gloves will protect your hands.

If locating a woodlot is a problem, you may be interested in the U.S. Forest Service's free firewood program. A firewood permit to cut dead and down trees on National Forest land can be obtained from the Ranger District office nearest your home. The permit entitles you to five (5) standard or logging cords of wood. It is for personal use only and cannot be sold, traded, or given away. The permit and map must be in the person's possession while gathering firewood. No firewood can be collected during the months of January, February, and March. Legal firewood is dead and/or downed material only. Any standing live tree, with or without leaves, is not legal free-use firewood. All National Forest timber sale areas are closed to firewood gathering. Sale areas are easily identified on the ground by the painted boundaries. It is not permissible to cut any live trees of any size to gain access to legal dead firewood behind them. Anyone apprehended cutting live trees will receive a citation and may have to appear in Federal Court.

If you decide to obtain a free firewood permit from the Forest Service, contact the nearest Huron-Manistee National Forests District Office. Remember, if you don't have a permit and follow the permit rules, you may add unexpected costs to your "free" firewood gathering.

District Court

The following persons appeared in 83rd District Court on Oct. 19:

Victor Fischer, 40, of Royal Oak, and Robert Fischer, 35, of Roseville, were charged with assault with a deadly weapon. They demanded preliminary examination to the charges.

Mark Dixon, 21, of Grayling, was bound over to Circuit Court on a charge of breaking and entering a motor vehicle.

Deborah Rabbitt, 25, of Gaylord, was bound over to Circuit Court on four charges of issuing bad checks.

Darryl Wakeley, 20, of Grayling, demanded preliminary examination to a charge of larceny of property valued more than \$100.

Richard Wilcox, 17, of Mt. Morris, plead guilty to a charge of operating a motor vehicle without a license. Wilcox had never applied for a driver's license. He was fined \$150 and costs but half the fine and costs will be suspended if Wilcox obtains a driver's license by Nov. 23, 1982. He was cited Sept. 28 by Crawford Co. Sheriff deputies.

Doodles From The Tall Timber

Wendell L. Hoover
Park Interpreter

While out taking pictures of the fall colors for use in a slide program a woodchuck crossed the highway just north of the picnic area. It was a full grown adult & fat as the proverbial butter ball. I suspect hibernation is just around the corner. It is rather odd to think of the short tailed, heavy bodied, burrow digging woodchuck as a member of the squirrel family. He brings this to our attention occasionally though by climbing a tree to escape dogs or to keep an eye on his territory.

During hibernation nothing is eaten so the stored fat is slowly absorbed to provide the meager warmth needed. There is an occasional respiration, but most of the time the only oxygen in the lungs is the trifle reaching them by the slow heart beats, and the diffusion of gases. A mirror held before the mouth and nose is not clouded by breathing.

The young born in April or early May are very small and undeveloped and do not venture from the den until six or seven weeks old. They begin to eat solid food such as grass and clover at that time. Both parents attend them at first, but by the end of August they are nearly full grown and scattered to dig homes of their own.

The burrows they dig may be fifty feet long with several concealed openings and may be six or seven feet deep. The burrows even when occupied are used by other members of the wildlife community such as rabbits and foxes. The fur of the woodchuck is never really prime since they hibernate, but the skin has been used in the past by Indians for medicine and pipe bags and more recently for the head on a banjo.

Tenderizers

Practically all tenderizers in commercial use are made from tropical fruits. Tenderizers work by softening the tissue of the meat, usually as the meat cooks.

Nancy Krey, County Clerk

To Readers of the Avalanche:

This is in response to Mr. Joyce's editorial in the Avalanche Oct. 21, 1982. He was tearing down Mr. John Medler's editorial of the previous week. Mr. Joyce states Parliamentary procedure allows everyone to speak once. What is the chairperson's responsibility then to permit those persons to speak the second time? Or to decree that someone is out of order if so? Since when is Mr. Joyce the Authority when there is a chairperson running the show? (Monday morning quarterback)? Mr. Joyce also had his facts mixed up about the other citizen (me) making the assinine statement: the profane word which he included was definitely not used. The unclear reason for the show of hands, (for Mr. Joyce's benefit) was prefaced by the question: "Let's see a show of hands of all those not wanting a millage increase?" (Which was the overwhelming majority). Maybe the Board of Commissioners knew what the show of hands was for because Mr. Nowak at the following Board meeting made the motion to reduce the millage by .2 mills. (Big deal which means about 30¢ per taxpayer) The front page article again in the Oct. 21, 1982, Avalanche states that in spite of this decrease in millage there is still a \$124,000 increase in the county tax revenue. Oh yes, that's for inflation, which incidentally, is on the way down.

This also brings up another point which I raised at that "sham tax meeting"! I stated that according to the Headlee Amendment as S.E.V. increased, the millage was to decrease commensurate with a gross equal tax not to exceed the earlier S.E.V.: That was never answered, swept under the rug. But it comes out in the form of \$124,000. more for '83 than '82.

Does this prove, Mr. Joyce and Mr. Nowak that it is the function of commissioners to treat the taxpayers like the peons of the banana republic? Giving them the credit of no brains and then wondering why they revolt!

This \$124,000 indicated that the Board of Commissioners were trying to pick our pockets and then hide behind Parliamentary procedure when I simply fight for the rights for us taxpayers.

Another point is where did Mr. Joyce spend almost \$300. last month and Mr. Nowak spend almost \$600. last month of the taxpayers' money? What services have they performed for the taxpayers on their own time and cost?

All taxpayers should vote for a previous record of performance, vote for the man who has dedicated many hundreds of hours unselfishly of his free time over the past number of years to keep the bureaucrats honest.

That man is Don Welser!

Girls Split With Gaylord & Mio

by Steve Ross,
7th Grade Student

Grayling Middle School girls split with Gaylord and Mio.

On Wednesday, Oct. 20th the Gaylord 7th and 8th grade girls traveled to Grayling.

They left with a split. Grayling's 7th grade winning 29-24 and the Grayling 8th grade losing 18-16.

On Saturday, Oct. 23rd the Mio 8th and 7th grade girls came over to Grayling. They also left with a split. Grayling's 8th grade losing 25-22, and 7th grade winning 22-16.

The Grayling 8th grade is coached by Mrs. Gayle Mills. They have a record of 3-3.

The 7th grade is coached by Howard Lehti, he is the head coach. His assistants were Dallas Hudson, and Mike Shearer. Their record is 5-1.

On Wednesday, the scoring for the 7th grade girls were as follows: Kelly Springer 10, Kelly Hudson 8, Dena Thayer 6, Jenny Money 3, and Debbie Clemons with 2 points.

Defensively they played a zone in the second half and pressed. They played man to man in the first half.

Scoring for Grayling's 7th grade on Saturday was: Kelly Hudson 9, Kelly Springer 6, Dena Thayer 4, and Jenny Money with 3 points.

They played man to man, zone, and pressed on defense.

This was Mio's first loss of the season.

On Wednesday for the 8th grade scoring was as follows: Jamie Kaiser 6, Michelle Moore and Julie Brooks 3 points, and Nikki Nicholas and Angie Roach with 2 points.

On defense they played a zone and pressed.

Saturday the girls played man to man, pressed, and a zone. Jenni Branch played an excellent defensive game.

Scoring was as follows: Michelle Moore 14, Jenni Branch, Richele Trudeau, Jamie Kaiser and Angie Roach all had two points.

Grayling's next game will be Wednesday against Kalkaska at the Grayling Middle School gym. Game time 6:30 p.m.

CARD OF THANKS

Our thanks to all our family and friends for the thoughtfulness and help during our time of sorrow due to the loss of our son, Kevin.

The prayers, calls, flowers, cards, and food will never be forgotten. At this time Bernie Fowler spoke to the Board regarding the lack of maintenance of several roads in the area. The Board advised Mr. Fowler that they are requesting the Road Commissioners to come to a meeting with this Board on Wednesday, Sept. 29th.

Treasurer Wakeley gave a monthly report to the Board on the revenues. Also explained the borrowing & paying off of the delinquent tax rolls.

The Airport & Landfill revenues gone over. Treasurer advised the Board on the amount of tax millage rate's & how the county operates on their allocated mills. Mr. Jon Thompson from the Avalanche questioned the Board members on the need for any additional mills for operation. Several areas of anticipated extra expenditures were presented to him.

County Clerk advised the Board on the new lock on the County building & who the keys were issued to.

As there is no further business to come before this Board, Chairperson Kitchen recessed this meeting until Wednesday, Sept. 29, 1982 at 9:30 a.m.

Nancy Krey
Clerk

Jeannette Kitchen
Chairperson

Meeting of the Crawford County Board of Commissioners continued & held in the Courthouse in the City of Grayling on the 29th day of September 1982.

Called to order by Chairperson Kitchen at 9:30 a.m.

Roll Call: Bidvia, Harland, Kitchen, Mattis, Miller, Neilson, Nowak - all present.

Clerk Krey present.

Visitors: Don Geiss, Joe White, Bob Ruddy, Chet Johnston, Joe Wakeley, Larry Hunter, George Rybicki, Fred Schaubly, Norm Parker, Gloria Kraus, Grover Cason, John Keir, Harold Mertes, Bernie Fowler, & several concerned County residents.

CORRESPONDENCE:

Letter of resignation from Harold Clingsmith from the County D.P.W., the Crawford/Otsego D.P.W. & the Crawford County Building Authority, to become effective 12/20/82.

The County Clerk presented the Board with several petitions that were signed by many voters who are opposing the Airport Zoning Ordinance this Board had adopted.

Clerk was instructed to have the signatures verified on these petitions.

Treasurer Wakeley & the Equalization Director Hunter came before the Board with information regarding the Truth in Taxation Hearing the Board will be having on 10/5/82.

The Equalization Director went over a chart he had prepared showing the additions & losses on the assessed valuations in the whole County.

The Treasurer went over the procedure to follow to be in compliance with the Truth in Taxation Act.

The reduction in State & Federal funding gone over. The amount of anticipated expenses the County will need for operation in 1983 discussed.

5 minute recess.

At this time the County Road Commissioners, several Township Supervisors and several area citizens appeared before the Board regarding the road conditions in this area. A lengthy discussion held with comments from all in attendance. The Road Commission & the County Board will do all they can to correct this problem of road improvement & maintenance in our County.

Commissioner Harland reported to the Board on the matter of the Sheriff's Marine Patrol being eliminated. Also reported on the Mental Health budget.

As there is no further business to come before this Board:

MOTION by Miller, second by Nowak, to adjourn. All Ayes.

Chairperson Kitchen adjourned the meeting at 12:05 p.m.

WHO THINKS PROPOSAL B IS BAD FOR MICHIGAN?

JAMES J. BLANCHARD
Democratic Candidate for Governor

I oppose Proposal B because it would give the Department of State Police constitutional status, depriving the governor and the legislature of authority to reorganize the department for greater efficiency.

Secondly, Proposal B would put a minimum level of staffing for the department into the constitution, thus allowing the department to avoid sharing in any necessary personal cuts which may be required by budgetary necessity.

Thirdly, Proposal B would give the constitutional status to the present ranks or classifications of troopers, which would deprive future administrations of the flexibility to introduce new ranks (such as detectives) or to end those ranks which become obsolescent.

COL. GERALD J. HOUGH
Director, Michigan Department of State Police

Col. Hough recently told the legislature that unless the legislature expands the state police budget by over \$4 million, hiring the 114 new troopers to meet the 2,257 minimum would result in the layoff of nearly 200 civilian state police employees. The additional troopers would be utilized to fill the civilian positions, resulting in a net loss of approximately 80 enlisted positions.

"Clerical, dispatching and janitorial duties and state building security presently performed by civilian employees would be performed by higher paid troopers who would seldom be available for police work," Col. Hough said.

RICHARD H. AUSTIN
Secretary of State

As chairman of the Michigan State Safety Commission, I have always been a supporter of a strong, effective State Police force. Proposal B, however, is not the way to assure this end.

RICHARD H. HEADLEE
Republican Candidate for Governor

"It's a decision that should be left up to management (the executive branch). . . . You can't run line items (trooper positions and salaries) through constitutional law."

GOV. WILLIAM G. MILLIKEN

"I fully understand the troopers' desire to insulate themselves from the effects of cutbacks in spending. However, to do so by constitutional amendment is to preempt the budget responsibilities placed by the constitution in the hands of elected representatives. . . . The history of the state police demonstrates the wisdom of maintaining flexibility — the department's make-up and responsibilities have changed frequently over the years to meet new needs. Under the proposed amendment, any future changes would require a vote to change the constitution. . . ."

BEVERLY McANINCH
President, League of Women Voters of Michigan

"The League of Women Voters of Michigan opposes Proposal B because it would effectively earmark money in the Michigan Constitution for the Department of State Police. The league believes the legislature should have broad and fundamental taxing powers free of constitutional restrictions, both as to the levying of taxes and their distribution. This proposal would not allow the state legislature continued flexibility in deciding the priorities of the state budget."

WILLIAM C. MARSHALL
President, Michigan State AFL-CIO

The amendment would seriously damage the state's ability to fund other essential services, particularly in tough economic times, since it would require that the Department of State Police be entitled to a minimum amount of state monies regardless of the state's fiscal condition.

VOTE NO ON B

Concerned Taxpayers for Law Enforcement, Inc., 116 W. Ottawa St., Lansing, MI 48933, Michael Koehs, Secretary Treasurer

(Paid for by Sheriff Joe White)

OPEN LETTER TO VOTERS OF DISTRICT 5

You have all recently received a letter from the "Grayling Township Attorney" on his "Letterhead" promoting my opponent and telling the voters to vote for him, because "he is a leader and a STRONG man!" and that "most Public Officials including the County Commissioners, want my opponent".

SO WHAT? Who honestly cares what the "Public Officials" want — ?? I WANT WHAT THE TAXPAYERS WANT, they still control the vote and I'm convinced they want less "Public Officials" which adds up to "LESS TAXES". I wonder why these same "Public Officials" including the township attorney don't want me? Could it be because WE petition and WIN so much that they don't want any of us on the "INSIDE"? We knew that before the letter told us. We know it every time we go to a public meeting, you know - the nice warm (sic) welcomes we get.

This same attorney, along with the P.O.'s tried to tell the signers of the petition (who wanted the four page repressive restrictive zoning ordinance 81-2 put to a VOTE OF THE PEOPLE) that we were wrong, and hadn't acted timely etc., they told us this 1/2 dozen times in the form of attorneys opinions etc., etc. How come the day we went to Court we were RIGHT and 81-2 zoning ordinance is NOW INVALID?

Now the "Public Officials" and the Attorneys from the County are telling us the "Airport Zoning petition" wasn't correct and we don't have enough signatures etc., etc. 732 signatures in 5 days time isn't enough? WANT TO BET?? We can read! And we KNOW the Judge can, so forget the trying to buffalo us!

Even if WE WERE wrong — which we aren't — 732 signatures should be evidence enough that the "PEOPLE AREN'T HAPPY" with the P.O.'s trying to cram something down, that is no longer digestible. "It's coming BACK UP." — Quote me, please!

In "the letter", promoting my opponent there was space enough, (I think) to print his expense account, but it wasn't mentioned, wonder why? We all know that government has cost, but I thought we were supposed to be working toward lowering these costs and making government smaller, all these meetings here and in Timbucktoo aren't helping us. Some of the present commissioners can find the time to travel all over the State to meetings which WE PAY FOR but when we have a "public hearing" on our HOME COUNTY TAX DOLLAR they allow us one hour and only half the voters to be heard, slam the gavel down and say "adjourned" and then have the gall to say "the consensus of the Board was that the meeting was fairly conducted according to the rules laid down". By Whom?? the P.O.'s didn't even listen or care, and my opponents later motion of reduction .2 of a mill is really a joke. That wouldn't buy the average taxpayer of the county a postage stamp. We aren't stupid enough not to know that was only a "political maneuver" on the part of the Board to TRY to make my opponent look good by allowing him to make the "motion for the so called reduction" and to get the front page headline of the paper. SORRY, it didn't work, we're NOT complete idiots AND we still think (as does the Attorney General's Office) the meeting SHOULD BE continued until all who want to speak are heard.

We also find it informative, that at this same meeting, which lasted one hour long, (and they used up 1/2 of that with their own chatter) found it necessary to CHARGE US THE TAXPAYERS for 1/2 HALF days pay. Yes, they did. Including my opponent.

As you can see, I do have some friends that are P.O.'s and all of them DON'T ENDORSE my opponent or many more of the activities that go on, that's how I get my information, and why I'm running, I'm wise to them.

I've worked for many years on the outside, FREE to the taxpayers to try to keep taxes reasonable and government off our backs, but both keep mushrooming so I want to now TRY from the "INSIDE".

Sincerely, Don Welser

Grayling Township Board

Regular Meeting — October 12, 1982

Members present: Bernard Fowler, Elizabeth Wieland, Evelyn Gardiner, Jacqueline Bonkowski.
Members absent: Marvin Hallett.

Others present: Howard K. Guyett Sr., Diane Whaley, Jeff. Dan May, Denna Phelps, Bob Chappel, Sue Brenner, Cal Brenner.

Meeting was called to order at 7:30 p.m. by Supervisor Fowler. Motion by Gardiner, supported by Bonkowski, the minutes be approved as amended. The amendment offered by Wieland, supported by Bonkowski, corrected item 16 to show \$30,500.00 transferred from the Township Improvement Revolving Fund and none from the Liquor Fund. All Ayes. No Treasurer's report was given as the books are at the Auditor's office.

1. Michigan Township Association's "Capitol Currents" was received. Fourth quarter revenues cut by Executive Order was noted. The court decision relative to solid waste management pursuant to P.A. 641, may be appealed to the Supreme Court.

2. Announcement of a training session entitled "Managing with Less" scheduled by Michigan Townships Association in Gaylord on 11-10-82 was received.

3. Availability of Fiscal Reports with data from local units since 1978 and state equalized valuation and tax rate data since 1973 through the Department of Treasury was acknowledged.

4. Notices by the Public Service Commission were received on the following items:

A. Consumers Power Company - notification to customers regarding rates for streetlighting service.

B. Consumers Power Company - monthly hearings relative to consideration to reflect charges or credits for changes in expense items associated with purchases and net interchange power.

C. Top O Michigan Rural Electric Company - bi-monthly hearings relative to consideration to reflect charges or credits for changes in expense items associated with purchased and net interchange power.

D. Michigan Consolidated Gas Company - hearing scheduled relative to authority to file revised rate schedules.

Discussion relative to these notices being received by the Board was held. It was the consensus of the Board that because of the monthly meeting date, it would be more effective to post these notices in the office as many times the hearing date is past by the time the Board receives the notice.

5. Notice of a hearing scheduled on 10-13-82 by the Dept. of Natural Resources for the inclusion of property in Sec. 10, T26N, R2W, in the Commercial Forest Act was received. Fowler will attend the hearing.

6. Correspondence from Merle A. Haanes, a property owner in Red Wing Terrace, relative to possible violations of the zoning ordinance was received. Legal counsel advised that at this time, no zoning violation exists. Deed restrictions are a civil matter.

7. CD Focus, the Department of Commerce's newsletter, was received highlighting tax-exempt changes affecting industrial development bonds and the Economic Development Authority's plans to offer businesses and municipalities loans at below market interest rates.

8. Correspondence from U.S. Senator Don Riegle relative to his receipt of our swamp tax resolution was received.

9. Correspondence from Supervisor Harold Mertes indicating Frederic Township's support of the swamp tax resolution was also received.

10. Correspondence from Representative Ralph Ostling indicating his support of the swamp tax resolution was also received.

11. Notice of U.S. Senator Carl Levin's local office hours for the month of October was received.

12. The Crawford County Sheriff Department Activities Report for August was reviewed and placed on file.

13. Notice was received from Jannette Kitchen, Chairperson of the County Board of Commissioners, indicating the Board's support of the swamp tax resolution.

14. Fowler informed the Board of two cases pending before the Zoning Board of Appeals. Legal counsel is being pursued on the transition of zoning ordinances.

15. Literature was received from Multi-Microfilming relative to services provided.

16. Fowler informed the Board that the Crawford County Transportation Authority held its organizational meeting and submitted their meeting schedule for the fiscal year.

17. A petition for a blacktopping project for Woodleaf Drive was filed by the property owners. Motion by Wieland, supported by Bonkowski, to authorize the Supervisor to proceed in obtaining cost estimates for a road improvement project as requested. All ayes.

18. A legal opinion rendered by Attorney Douglas Dossan relative to interpretation of the Zoning Ordinance as to whether or not residential uses are impliedly permitted in industrial or other so-called lower zones was received. The opinion indicates such uses are not permitted under the present Zoning Ordinances.

19. Fowler informed the Board that Sharon Ruhl has started in the Assessing Office and Tom Bateman is assisting with some training.

20. The Building and Ordinance enforcement Report was received, reviewed, and placed on file.

21. Confirmation of the statement of assurances, entitlement period 14, was received from the U.S. Dept. of Treasury, Office of revenue sharing.

22. Fowler informed the Board that P.A. 230 of 1982 which allows the appointment of a deputy supervisor also takes away the right of the deputy clerk and deputy treasurer to vote in absence of the clerk or treasurer.

23. A copy of HB 5430 introduced by Representative Ostling relative to proportion shares of state revenue sharing was reviewed.

24. A request from Beaver Creek Township for fire protection of the area south of Seven Mile and west of I-75 was received. Motion by Bonkowski, supported by Wieland, to extend coverage to include said area as requested with no additional stand-by fee. All ayes.

25. Fowler will meet with Attorney Nelson Miles to discuss legal counsel provided the township.

26. A statement of facts on the proposed office building has been prepared and is available for distribution.

27. An inquiry of fencing and posting property listed under the Commercial Forest Act was made. It is our understanding that this is not allowed under the act.

28. Fowler reported a slight increase in the per parcel rate for computer service was made.

29. Changes in the State Tax Commission regulations being considered include up to a nine member Board of Review and allowing everyone to appeal by letter.

Motion by Bonkowski, supported by Gardiner, the bills as presented on vouchers 5823 through 5852 in the amount of \$15,379.98 be approved for payment. Roll Call: Bonkowski-aye, Gardiner-aye, Hallett-absent, Wieland-aye, Fowler-aye. Motion carried.

Motion by Wieland, supported by Bonkowski, meeting be adjourned (8:45 p.m.) All ayes.

Elizabeth H. Wieland
Township Clerk

HANDS

What do our hands tell us?

A child's hands—smooth, pliable, soft and beautiful—speak of innocence.

The hands of youth—restless, finger-snapping, rhythm-beating—are searching for answers.

A mother's hands are firm, capable, yet gentle. Dad's hands are big, strong—they represent authority. Grandmother's hands are wrinkled and veined—they tell us about kneading bread . . . and praying. An old man's hands are gnarled and crippled, crossed on a cane, waiting.

Praying hands, working hands, little hands, old hands all grapple with the problems of life.

Some problems are too great to solve alone. It takes a helping hand . . . outstretched to your hand.

With outstretched hands the Church welcomes you, seeks you, extends a joyous invitation to worship God.

Vikings Run Over Boyne

Using a strong rushing offense Grayling beat Boyne City 22-18 Friday to record their first win of the year.

Jeff Kea rambled for 124

yards including touchdown runs of 30 and 9 yards. Jim Hill ran for 94 yards and a two-point conversion. A 34-yard touchdown pass to Bob

Keene from Jim Stewart and a two-point conversion pass to Paul Hamlin complemented the running game well and topped off the Viking scoring.

Mike Hickey got the ball rolling for Grayling by taking the opening kickoff for a 47-yard return. On the second play from scrimmage Kea sprinted into the endzone. Hill's run made it 8-0.

Grayling lead stood up at halftime as the GHS defense put it to Boyne causing two fumbles and one interception in the first half. Ryan Morford picked off the Boyne pass and Joe Riddle, Greg Helsel, and Jim Hill covered fumbles during the game.

On their opening drive in the third quarter the Vikings drove 69 yards in 11 plays using all running plays. Head coach Bill Klinger said the error-free drive as the key to the ballgame. Penalties, which have hurt the Vikings in earlier games, were eliminated during the drive.

Boyne finally scored in the third quarter and their special extra-points attempt was stopped by Grayling. Klinger said an excellent scouting report by J.V. coaches Charles Spencer and Fred Wolcott helped prepare the Vikings for the trick pass play.

Passes to Keene and Hamlin earned 8 more points for Grayling in the 4th quarter to put Grayling up 22-6. Boyne came to score twice, the last touchdown on a flea-flicker play at the end of the game but it was too late.

Defensively, Helsel was in on 26 tackles for Grayling. Kea, Martella, Hickey, Morford, Cross, and Emerick also played well for GHS on defense. Klinger also credited the offensive line of Trudgeon, Helsel, Emerick, Brooks, Petrie, Hamlin, and Keene for making the running game go.

The J.V.'s won 32-6 to improve their record to 5-2.
